# DOMINATE THE FIELD

No matter where you are, even in the most extreme environment,  
with your Benelli firearm you live the action to the fullest.

Uncompromisingly, endlessly.

 **Benelli**

# MONTEFELTRO

## Natural grip

The completely renewed design of the ergonomic stock and fore-end ensures an easy and secure grip and excellent control of the firearm. The advanced guard design allows you to reach the trigger comfortably and spontaneously.

## Design functionality

Style, ergonomics, functionality.

Only when shape and function meet, it is possible to go beyond the standard and rewrite the canons of hunting performances. With Montefeltro, the functionality of the shotgun comes directly from the design.

## Loading fluency

The new guard, designed with a slide on the front, facilitates loading operations, which have never been so smooth.

## Maximum operability

The bolt handle and safety, with a revised and increased shape, allow an accessible and natural operation, ensuring maximum fluidity and speed.

## Challenging light

Harmonious in proportions and movements.

Thanks to its light-weight, the new Montefeltro in 20 gauge is easy to handle, easy to swing and favours aiming at the target, taking the challenge to the next level.

## Evolution of style

New and bolder shapes define Montefeltro's style.

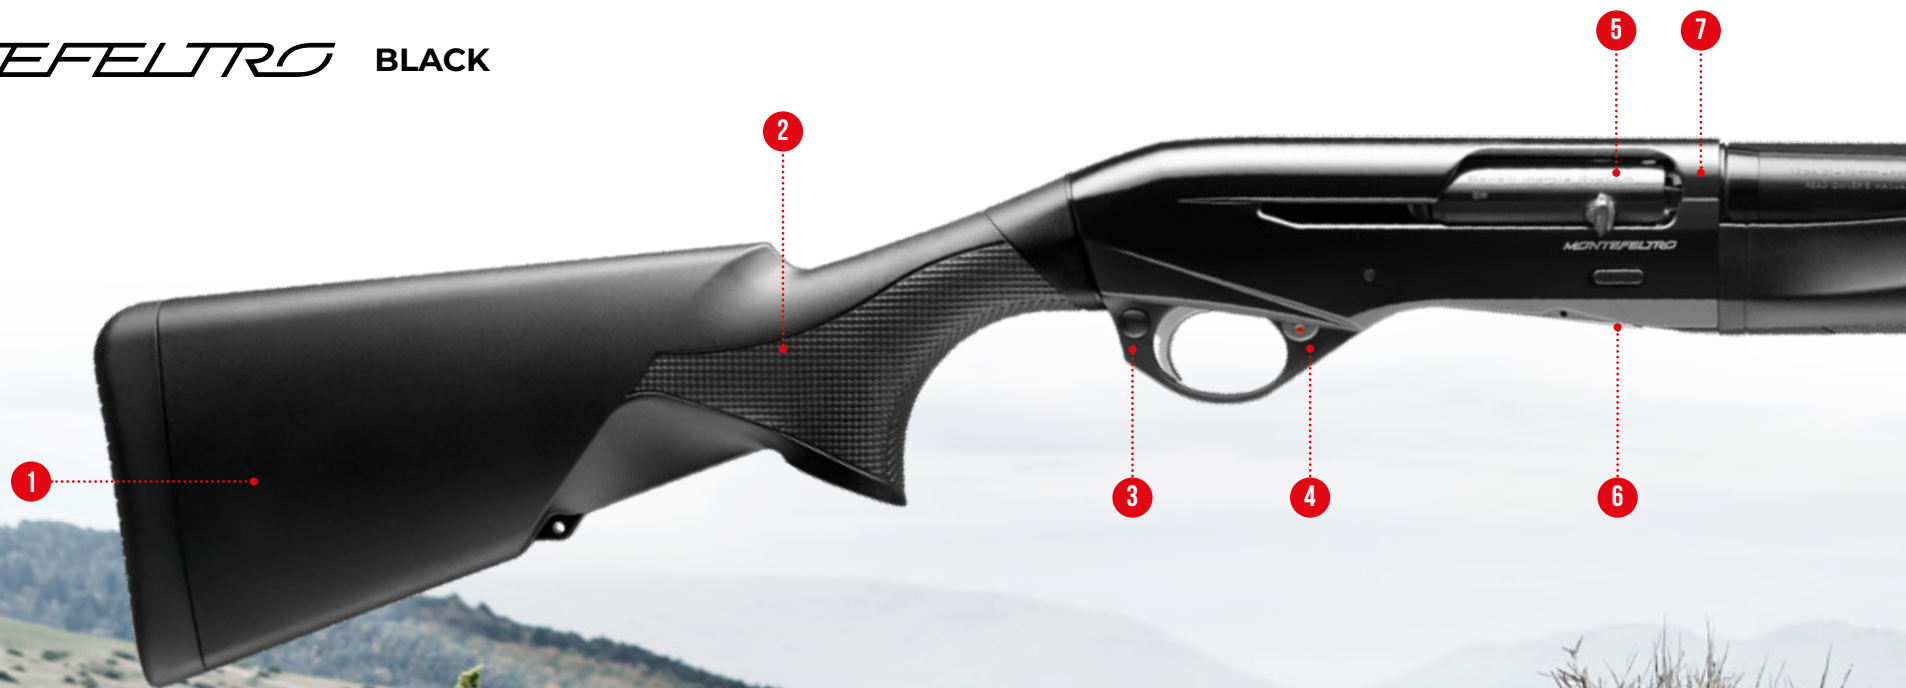

The reference to the model it comes from is rather strong, as strong as the leap forward that makes the new design, pushing towards modern and ergonomic lines. The essence of design lies in the balance between aesthetic geometries and operational functionality.

## Perfect balance

The new receiver has been redesigned to ensure perfect balance and targeting, as well as easy activation of the operating buttons.

# MONTEFELTRO BLACK

## 1 Stock

With a completely redesigned concept, the stock features an ergonomic pistol that promotes a natural and safe grip, for better control of the shotgun. Made with polyurethane foams, the recoil pad is soft, lightweight and reduces recoil when shooting.

## 2 AirTouch

The ergonomic checkering on the stock and fore-end features a design that promotes the natural ventilation of the hand, ensuring perfect grip in any hunting situation.

## 3 Evolved trigger pull

Developed in geometric details, the light and fast trigger pull guarantees constant performance over time, absolute control and safety.

## 4 Buttons and bolt handle

Thanks to the ergonomic design of increased safety, bolt handle and cut off, the drive is accessible and functional, ensuring absolute operating speed.

## 5 Inertia Driven System

Always synonymous with Benelli, the inertial system guarantees operation, design excellence and simplicity of construction. It ensures unparalleled reliability, durability and ease of maintenance.

## 6 Easy Loading

The large loading port, combined with the ergonomic guard, facilitates loading and unloading operations and makes them more comfortable. The bolt release button in two pieces latch lever makes fast closing and even easier to unload the cartridges.

### **7 Easy Locking**

The advanced bolt locking system guarantees maximum reliability and safety. Designed to be anti-rebound, it significantly limits accidental mechanism retraction and is easily relocked, for a shotgun always ready to shoot.

### **8 Ergonomic fore-end and cap**

With a revised design, the ergonomic fore-end ensures an extremely natural grip; the cap is functional to unscrew and facilitates the assembly and disassembly of the fore-end.

### **9 Aiming**

The ventilated metal rib and high visibility sight offer quick and instinctive alignment to the target in all light conditions.

### **10 Crio chokes**

The chokes are treated with cryogenic technology, ensuring longer quality life, compactness and uniformity as well as excellent ballistic performance.

<b>MODEL</b>	<b>MONTEFELTRO WOOD</b>
<b>GAUGE</b>	12/20
<b>CHAMBER</b>	76/3
<b>SYSTEM</b>	Inertial system
<b>STOCK</b>	Varnish walnut wood with AirTouch checkering
<b>RECOIL PAD</b>	Polyurethane
<b>L.O.P. (LENGTH OF PULL)</b>	365 ± 2 mm, adjustable to 355 ± 2 mm with short recoil pad or with long recoil pad at 375 ± 2 mm
<b>DROP AT COMB</b>	37 ± 1 mm
<b>DROP AT HEEL</b>	55 ± 1 mm, adjustable to 45/50/60/65 mm; right/left cast
<b>FORE-END</b>	Varnish walnut wood with AirTouch checkering
<b>RECEIVER / BOLT</b>	Black anodised aluminium receiver, nickel-plated bolt assembly
<b>OPERATION PACK</b>	Easy Loading system / Easy Locking system
<b>TRIGGER ASSEMBLY *</b>	Variable geometry with lighter trigger pull of 2 Kg
<b>BARREL</b>	12 ga.: 61/24; 65/26; 70/28; 76/30 metal flat rib 20 ga.: 61/24; 65/26; 70/28 metal flat rib
<b>CHOKES</b>	M (**); IC (***); CYL (****) STEEL SHOT OK and F (*); IM (**) NO STEEL SHOT
<b>SIGHT</b>	Long red fibre optic
<b>MAGAZINE</b>	Tubular with 2-round limiter (without limiter: 4 rounds 70 or 3 rounds 76)
<b>DIMENSION AND WEIGHT (+/- 100 g)</b>	12 ga.: length 1250 mm, weight 3000 g with 70cm/28" barrel 20 ga.: length 1200 mm, weight 2700 g with 65cm/26" barrel
<b>PACKAGING</b>	Carton box 100 % Plastic Free with VCI (vapour corrosion inhibitor), 5-choke kit with key, drop change kit, sling swivel, safety and warranty manual, Ben Oil
